Experience

Freelancer

2024 – Present

Software Engineer

Remotely

- After graduating and completing my military service in 2023, I started to develop my skills and knowledge in programming, specifically full-stack development, through various courses and scholarships. Currently, I am working on some projects as a freelancer to gain more experience.

El-Sawy Culture wheel

2021 – 2023

Social media Specialist & Designer

Giza, Egypt

- As a part-time job in a field I love, I worked at El-Sawy Culture wheel in Zamalek, Giza. I was responsible for designing social media graphics and writing content for the events.

Freelancer

2015 – Present

Ui Designer - Graphic Designer

Remotely

- I have always had a passion for design in general and worked on some projects using Photoshop. So it was easy for me to now enter the world of UI development using Figma.

Projects

Fayrouz Khan Shopping Website | React.js, Next.js, MongoDB

2024

- I worked as a front-end developer on this startup project and used a dummy API until I finished the back-end using express.js
- It has a desktop view only for now, It will be responsive soon.

Pomodoro Timer | HTML, CSS, JavaScript

2024

- Pomodoro Timer is a simple and customizable timer application designed to help you boost your productivity using the Pomodoro Technique.

URL Shortener | HTML, CSS, JavaScript

2023

- This is a simple URL shortener web application that allows you to shorten long URLs.
